I have just completed the game and highly recommend it if you like dungeon crawlers like Grimrock.

Read my full review here: <http://crpgrevisited.blogspot.se/2016/11/ruzar-life-stone-review.html>. This game was a lot longer than I expected. There always seemed to be a new room and the artwork was great. I found the mystery challenging but fun. I liked this game overall. Game is good. Great little time waster. Fun to play a few rounds and then put down.. Well, personally, I'm a fan of horror games, but as far as I've played this game, it has completely different atomsphere from others. Sometimes, it does lag in small amount when it comes to rendering big terrain but it disappears quickly. To be short, this game is as good as it can be for indie developers, and also, I had a nice time playing it.

P.S more puzzles next time :). I already own Cologne - Koblenz, so why don't you offer the airport extension with the 30% off, so the GOOD customers get the benefit for being a GOOD Customer, instead of offering the bundle at \u00a320, as if your giving us something by charging us \u00a3 MORE than the original price. This is not the only example of this policy on DTG site. Most publisher give a discount taking into account what you already own.

Arena style chaos and mayhem... its a fast paced, run and gun brawl that I did not find fun in the least.. Enjoyed it. I wish that they will open all doors someday. 10/10. Really really good offering from choice of games. Max asethitic and great gameplay. Highly highly reccomend.. I really enjoy this game as a more casual offroad racer, kind of like a modern Sega Rally. There are lots of different vehicles to unlock and quite a few racing series to do. You can do car setup and customizing similar to Dirt, but it is a bit more arcadey than those games. But if you go in knowing that you can have a lot of fun.. Plus is plus. It's more of the same, and a bit extra! You wouldn't even know there was an expansion, you'd just think you found new stuff you never discovered before. Very cool!
